Atlas Portfolio: Daily Market Report

- Trading activities closed the week on a negative note as NSE ASI depreciated by 0.24%.
- Living Trust announced an insider trading of close to 400 million Naira in value. We believe this is a form of consolidation within the group and that the stock holds potentials, investors should watch out for its price movement in the medium term.
- TRANSCORP traded 1.05% of its total shares outstanding which was 38% of today's market volume. The trade led to a decline which can be attributable to profit taking as the stock has been on an uptrend since the news of Heirs holdings acquiring OML 17 broke forth.
- The huge negative market breadth today can be attributable to profit taking by investors also in anticipation of the MPC meeting next week. What impact will an increase or decrease in MPC rates have
